R. G. DUN'S REVIEW OF TRADE.

Hope Held Up by the Reports From All the Leading Trade Centers—Business Going Ahead Without Waiting For Washington—The People Controlling the Day and Better Times Are Coming. Encouraging Reports From Washington.

NEW YORK, Aug. 19.—R. G. Dun & Company's weekly review says: There is a rift in the clouds. Faint and yet definite signs of improvement are all the better because they come, not from impossible delusive hopes or from monetary foreign aid, but from the good sense and the wonderful recuperative power of the people themselves. Business is trying to go ahead without waiting for Washington. Imported gold, \$9,000,000 or more during the week, does not go to the right spot, but the people are creating a homemade currency for themselves by using certified checks in paying hands, selling local accounts and purchasing grain and cotton.

The bank circulation has increased \$2,000,000 but the decrease on deposits of national banks alone, May 4 to July 12, was \$193,169,588, and during the past month withdrawals have also been heavy. Little money comes back as yet from timid hoards, and the paralysis of exchange is nearly as complete as ever, but that very fact pushes each section and city into relying more on itself and less on the government and on Wall street. Many concerns are failing or closing but resumption are now becoming somewhat frequent, and in the very shrinking of production men see evidence that demand must soon overtake supply.

No such shrinkage resulted at any time in five weary years after the panic of 1873 as has already appeared in great industries. Pigiron does not rally, but sells at \$14 here and \$13 at Pittsburg for No. 1, though the weekly output has been reduced 46 per cent since May 1, but a few large iron and steel works are beginning to resume operations. Though five have failed and 24 stopped during the week, 14 have resumed. Only a third of the Connellsville coke ovens are at work, but coke at \$1.25 gives a better chance to iron manufacturers.

Sales of woollens in seven weeks have been only 17,575,000 pounds, against 50,327,380 last year and 37,450,800 in 1891, and it is stated that 93,000 looms and 4,300,000 spindles in New England are now idle, which means more than a quarter of the cotton spindles in the country, but 25 cotton and woolen mills have resumed, while 28 have stopped and one failed during the week. Some what fewer cancellations are met in dress goods, and there is more buying of fall woollens. Shipments of boots and shoes from Boston since the end of June have been 462,848 cases against 572,345 last year, a decrease of 17.1-2 per cent, but a little more demand for goods is now seen, and some factories near Boston and Philadelphia have resumed.

With such shrinkage in the great industries, it is only surprising that railroad earnings do not decline more, the decrease on roads reporting August business so far being 15 per cent. The decrease of 25 per cent in clearing outside New York last week and 30 per cent this week, is only natural. A little more money is now found for commercial loans, and failures of banks have become both less important and less frequent, though the greatest caution is shown in accommodations.

The receivership for the Northern Pacific had become so fully discounted that it produced little effect in the stock market, though this is the third great railroad default this year, and the aggregate stocks and bonds of the three roads amount to \$650,000,000. Prices of securities have yielded comparatively little, the average for railroad stocks being \$48.62 against \$45.34 last week, and trading has been dull. Speculative markets have generally declined a fraction in spite of crop reports, which are not solid enough to outweigh great stocks in sight. Cotton fell a quarter of a cent with somewhat better reports of probable yield.

Wheat drags near the lowest figures ever known, in spite of decrease in visible supply, for though western receipts are not large, stock on hand is far behind the power of speculators to carry, with money markets in their present condition. The movement of corn is decidedly large, with crop prospects improving.

Late advices from Washington are not more encouraging in regard to financial action. The treasury has been losing money rapidly, holdings \$6,600,000 less in gold, \$1,700,000 less in silver, and \$900,000 less legal tenders in excess of outstanding certificates, than it held one week ago, while the new treasury notes outstanding have increased \$400,000. It is coming small gold as rapidly as possible, and issued \$5,500,000 additional bank notes during the first half of August, but has very limited power, because rapidly diminishing receipts are no longer enough to cover the necessary disbursements.

The New York clearinghouse has now issued \$37,880,000 certificates and the Boston clearinghouse \$11,200,000, but more important relief comes from the abatement of the drain upon savings banks, and of the demand upon other banks for currency to be used in paying hands in this and adjacent states. But this decrease in demand is of itself evidence that industries and trade are

greatly embarrassed, many works having stopped and many hands receiving no wages. The more hopeful signs which appear should be interpreted with full understanding that a genuine revival of business can not begin until a large demand for goods and better conditions otherwise enable a greater proportion of the shops and mills to employ and remunerate labor as usual. As yet the works closing exceed in number those resuming, and the failures continue each week to restrict the number of firms able to share in the employment of hands and the transaction of business.

The failures this week number 455 in the United States, against 192 for the same week last year, and 27 in Canada, against 25 last year. Of United States failures 154 were in the eastern states, 84 in southern, and 217 in western states and territories.

AN ITALIAN COUNTERFEITER.

He Made a Desperate Resistance When Placed Under Arrest.

ORANGE, N. J., Aug. 19.—The police here are bothered by the flooding of the city with counterfeit silver. The crime has been traced to the Italian quarter. Detective Conroy last Thursday arrested an Italian who was locked up. Four of his friends called to see him, and through them Detective Conroy was able to locate the principal yesterday.

The man was found on Cone street. He was arrested and went along quietly until a blind alley was reached, when he broke loose and started into it. Conroy followed and a desperate rough-and-tumble fight resulted. The Italian made an attempt to draw a stiletto, and also to get rid of his coat by passing it over to his confederates. Conroy finally got his prisoner to the station house. When searched over a quart of bogus silver 10 cent pieces, quarters and half dollars was found in the pocket of his coat.

POVERTY AND DISTRESS.

Mrs. Mary Gardner Ends Her Sorrows by Suicide.

JEFFERSONVILLE, Ind., Aug. 19.—Mary Gardner of Clarksville committed suicide by jumping into her cistern and drowning. Shortly afterward her daughter, who had been absent, returned home, and not finding her mother, looked all over the place and at last discovered her in the cistern.

The cause for Mrs. Gardner's action was that her husband is mysteriously missing for the last three or four weeks and she was in bitter poverty with six children on her hands. It is believed that her husband committed suicide also, on account of having no work. Mrs. Gardner had showed no signs of despondency and her act is only accountable on the basis of poverty and grief on account of her missing husband. They had lived together very happily, although Mr. Gardner was 12 years younger than his wife.

Water and Gas Combined.

PORTLAND, Ind., Aug. 19.—On the farm of Michael Hoover of Penn township is a combined gas and water well which is quite a curiosity. The well was drilled about six months ago to a depth of 133 feet, and a good supply of water found. Shortly after the pump seemed to be out of repair; the water came in jerks, and then stopped entirely. It then began to flow, and with it came gas. Now Mr. Hoover has a flowing water and gas well. The gas, when lighted, burns to a height of five feet, and is sufficient, if separated from the water, to run two or three stoves. The water is clear and cold, and no taste of the gas can be detected.

Badly Demoralized.

COLUMBUS, O., Aug. 19.—President John Nugent of the Ohio Miners' association says he placed his resignation in the hands of the executive committee, when it was demanded by the miners when they heard of the wage agreement made by Nugent, but the committee refused to accept it. The whole committee, he says, would resign, but there is no person or board to resign to. It requires 60 days after nominations before elections can be held. The whole organization is badly demoralized over the wage question.

Robbers Foiled.

CHARDON, O., Aug. 19.—At an early hour in the morning the residence of William West, a wealthy farmer, was burglarized by three tramps, who entered his room, and, after threatening to kill him should he make any noise, pulled him out of bed and securely bound him with ropes. The noise made by his fall awakened Mrs. West, who, with the servant girl, raised the alarm. The robbers beat a hasty retreat. Mr. West had just sold his wheat, and had considerable money in the house, which was untouched.

Cleveland Has a Big Undertaking.

CLEVELAND, Aug. 19.—The city of Cleveland has filed its formal claim in the courts to certain land on the lake front now occupied by railroad companies, and another long and stubborn contest is in prospect, similar to the famous Chicago litigation. The railways affected are the Lake Shore, the Pennsylvania and the Big Four. The territory in question appears on old city maps as Bath street, and is now valued at over \$2,000,000.

JEFFERSONVILLE, Ind., Aug. 19.—Charles Richie, of Scott is unfortunate. Two weeks ago he went through a bridge at Saluda with his traction engine. Having barely recovered, yesterday he was crushed between the engine and thrasher at Vallonia, probably fatally.

Fell Into a Sewer Hole.

GALLIPOLIS, O., Aug. 19.—Abbe Johnson, an employe at the Epileptic hospital, fell into a sewer hole and sustained very serious injury to his right side. He is in a precarious condition.

DOINGS OF CONGRESS

Proceedings of Both the Senate and House.

MONEY MATTERS CONSIDERED

The Financial Situation the One Theme Discussed in Both Branches of Congress A Night Session Held in the House Which Was Devoted to Discussing the Silver Question.

WASHINGTON, Aug. 19.—In the absence of the vice president Mr. Harris (Tenn.), president pro tem. of the senate, presided.

A communication from the secretary of the treasury was presented and read on the subject of gold and silver payments. It is therein stated that on several occasions recently gold coin has been presented at the treasury in exchange for silver dollars and that the silver dollars were required to be held in the treasury to cover outstanding silver certificates and treasury notes and that at present the department would not, and could not, exchange silver dollars for gold if requested to do so.

The finance committee presented through its chairman, Mr. Voorhees (Dem., Ind.) a bill to repeal the purchasing clauses of the Sherman bill and containing a declaration that it is the policy of the government to maintain the parity between gold and silver coins. The minority of the committee, through its spokesman, Mr. Vest (Dem., Mo.), presented a substitute fixing the number of grains of silver to be contained in the dollars, half dollars, quarters and dimes on a 20 to 1 ratio. The bill and substitute went to the calendar, and their consideration is to begin on Tuesday next, after the morning hour.

The bill to allow national banks to increase their circulation up to the par value of their bonds on deposit occupied the attention of the senate for most of the day. There was a long discussion on the amendment offered by Mr. Allen (Pop., Neb.) for the cessation of interest on the bonds on which the increase is to be based, and on the amendment offered by Mr. Cockrell (Dem., Mo.) for the redemption in greenbacks of such two-per-cent bonds as may be offered. Mr. Allen's amendment was defeated, 39 to 11, and Mr. Cockrell's had not been acted upon when the senate adjourned at 4:30 p. m., until Monday.

House Proceedings.

WASHINGTON, Aug. 19.—The new members of the house continue to come to the front. The star speech of the day was delivered by Mr. Sibley of Pennsylvania, the only member of the Keystone state who is opposed to placing the United States upon a single gold standard, and who is a firm advocate of bimetallicism. He is about 53 years of age, gifted with a fine voice and a vast fund of wit, and a great flow of language. He immediately took his place among the orators, the logicians and humorists of the house.

On the other side of the question there appeared another new champion, Mr. Everett of Massachusetts, who succeeds Mr. Lodge, is a fine speaker and attracted the attention of his colleagues. He, besides having a good delivery, has a keen appreciation of humor and commanded an interested audience.

Haines of New York and English of New Jersey, both Democrats, spoke in favor of repealing the silver purchase clause.

At a night session the discussion was continued.

Hurricane in Nova Scotia.

HALIFAX, Aug. 19.—A terrific hurricane swept over Cape Breton yesterday, the wind being easterly. Many vessels dragged their anchors and went ashore, some being total wrecks. Three vessels are ashore at Gabarus, one of them being an entire loss. The mail steamer St. Pierre, which sailed in the morning, had to return to North Sidney and reached there just in time to escape probable destruction. All telegraph and telephone wires are down and news of wrecks and disasters are not obtainable.

One Escaped.

BIRMINGHAM, Ala., Aug. 19.—The five remaining members of the Meachim gang of outlaws, who were surrounded by the sheriff's posse in a swamp near Jackson, escaped the vigilance of the posse last night and crossed the line into Mississippi. They will be lynched if they attempt to return. Since the Clark county war began, nearly 20 members of the gang have been killed. Three spies were tied to trees and shot this week.

Large Catch of Seals.

WASHINGTON, Aug. 19.—Advices received at the treasury department state that so far this season catch of seal in Japan waters has been as follows: By the American fleet of 18 vessels, 19,460; by the British fleet of 19 vessels, 24,010. The catch is considered a large one.

Missing Conductor Located.

WASHINGTON, Ind., Aug. 19.—The missing conductor, W. F. Hewitt, who disappeared from this city Tuesday night, has been found safe at Olney. He walked all the way—50 miles. He is supposed to have been suffering from temporary mental aberration.

An Incendiary Fire.

SYSELBYVILLE, Ind., Aug. 19.—The large barn of Frank Mull, in the eastern part of this county, burned with its contents, consisting of 100 tons of hay, 500 bushels of corn, 1,500 bushels of wheat and 11 horses. No insurance.

HE MURDERED A BOY.

Judge Lynch Does Business at Morgarfield, Ky.

MORGANFIELD, Aug. 19.—Charles Walton, the negro who cut Sam Keith's throat for a few dollars, was hung to a limb in Richards' woods, near there Thursday night a little before 11 o'clock. The mob was so orderly and secret that the crowd who had waited in front of the Capitol hotel in anticipation of the event knew nothing of it until after the execution had occurred. Jailer Sellers and Marshal Hurst, fearing a mob, took the negro from jail at 11:30 and started for Henderson, but were overtaken and the prisoner secured.

The crime for which Walton was lynched was heathenish and dastardly. Luring young Sam Keith, a white boy about 13 years old, out of the fair grounds and into a cornfield near by, he deliberately cut his throat and robbed him, knowing that the poor fellow only had about \$4 which he had made that day selling watermelons.

While the lynching is deplored, every body believes he was guilty and ought to have been hung. The boy recognized him without hesitation. Walton claimed to be from Egypt, Mich., and was a big, villainous looking negro.

HE WALKED FROM NEBRASKA.

A Connecticut Boy Crosses the Continent in Search of Friends.

MIDDLETOWN, Conn., Aug. 19.—Last night Johnnie Treadwell, aged 12 years arrived in Higginnum from central Nebraska, having made the entire distance on foot. Several years ago his parents resided in Higginnum. In 1887 his father died and left the boy and mother with little means of support. Soon afterward they moved to Nebraska.

Early last spring the mother died, and the boy was without money or means of subsistence. Soon after his mother's death he started to walk the 2,000 miles between him and Higginnum, where he knew he had relatives. After five months of toiling and pain he reached his destination, ragged, half starved and completely destitute. When he presented himself to his uncle his condition was pitiable. This evening he was in a critical condition and may die.

Desperate Suicides.

MONTREAL, Aug. 19.—William Jefferson, William O'Reilly and Michael Stark, with their arms locked together, attempted suicide by jumping into the river. The police boat reached the unfortunate as they were sinking for the last time, and then began a most desperate struggle. Three times the officers dragged O'Reilly and Jefferson out, before they overcame and rescued them, but Stark found the grave he sought in the depths of the rapidly rolling river. The rescued are held to answer a charge of attempted suicide. They were unable to get work or food.

Georgia's Cotton Crop.

ATLANTA, Aug. 19.—Colonel Nesbit, state commissioner of agriculture, has completed his estimates for the cotton crop. The crop which matured in Georgia in 1892 was between 850,000 and 875,000 bales. The crop which is now making is one or two points below last year's.

New Men May Strike.

KANSAS CITY, Aug. 19.—The imported negro miners at the Central Coal company's shafts, near Weir City, Kan., who recently took the places of strikers, have demanded an increase of wages of 6 cents per ton, yearly scale, and propose to strike if their demand is refused.

Boy Terribly Scalded.

CANTON, O., Aug. 19.—Some boys were playing with a toy furnace and boiler. The latter was a light tin can, and it exploded when steam generated. Charles Stoddy, one of the boys, was caught in the stream of boiling water and steam, and he is in a critical condition.

Aged Couple Murdered.

CHEROKEE, Ia., Aug. 19.—Mr. and Mrs. Martin Shultz, an aged couple living alone on a farm in Tilden township, in Cherokee county, were foully murdered. They had concealed about the house about \$1,000, and of this the murderers secured only \$250.

Anxiety for an Overdue Ship.

MONTREAL, Aug. 19.—The Dominion line steamship Sarnia from Montreal is now 20 days out, and there is no news of her since she was reported on Aug. 7 with her machinery damaged. There is considerable anxiety felt here concerning her safety.

Shot While Asleep.

DENVER, Aug. 19.—A man, supposed to be George Martin, was shot and killed while asleep this morning at Sheridan Park, six miles from Denver. The motive was not robbery, and the murderer is unknown. The affair is very mysterious.

Shot by a Green Officer.

DENVER, Aug. 19.—Frank Barton, a carpenter, was fatally shot by Officer McPhee, the policeman mistaking him for a burglar. The man ran when hailed and the officer, who is inexperienced, fired three shots, one taking effect.

Injured by a Fall.

ENGLISH, Ind., Aug. 19.—Mrs. A. M. McDermott tripped and fell, striking her head upon a block, with possibly fatal effects. The lady is unable to move or speak, and little hope is entertained of her recovery. She is 64 years old.

Gold Still Coming Back.

LONDON, Aug. 19.—Gold to the amount of £78,000 was withdrawn from the Bank of England yesterday for shipment to the United States. Sixty thousand pounds was withdrawn for shipment to Toronto.

RIOTING IN FRANCE.

Tumultuous Scenes in the Department of Gard.

OVER FIFTY PEOPLE KILLED

One Hundred and Fifty Wounded—Frenchmen and Italians Differ on the Wage Question and Bloodshed Follows—The Italian Laborers Finally Driven From the Scene of Action.

PARIS, Aug. 19.—The riot at Aigues-Mortes, in the department of Gard, in which 50 men were killed and 150 severely wounded, had its origin in a dispute between workmen regarding wages.

Considerable salt is produced at Aigues-Mortes and the works employ many men, some of whom were Italians. These Italians were working for wages considerably lower than those demanded by and paid to the French men employed at the works. The latter feared that it would be only a question of time when they would be replaced by Italians, and much bad feeling was engendered between the two nationalities.

Some of the men, Frenchmen and Italians, became involved in a fight over the wages question, and in a very short time a general riot was precipitated by the action of the other salt workers, who hastened to the assistance of their respective countrymen.

The French, numbering 500, carried every kind of weapons, from pickaxes and bludgeons to firearms. There were frightful hand-to-hand fights in the streets. Afterward 500 Italians barricaded themselves on a farm. They were besieged forthwith by the French and a regular battle followed. Whenever an Italian escaped he was hunted like a rat to his death.

There is no apprehension of further trouble, the mayor of the town having announced that henceforth no Italians will be employed in the salt works.

WORSE THAN WAS DREAMED OF

New Disclosures in the Affairs of the Indianapolis National Bank Failure.

INDIANAPOLIS, Aug. 19.—New disclosures in the affairs of the Indianapolis National Bank make the failure more than was dreamed of. Instead of \$361,000 advanced to the Coffins, who operate the Indianapolis cabinet works, it appears that the bank gave them over \$400,000. Bonds to the face value of \$250,000, and a mortgage on the plant, are the securities accepted by Banker Haughey.

Now it develops that there is a previous mortgage on the works, and that the Coffins sold the alleged branch works in St. Louis, Chicago, New York and Boston before the bank failed.

The London branch has burned up since the failure, together with the books and goods. There was no insurance. The receiver has found goods of the value of \$95,000, against which is \$9,000 in claims.

Efforts are being made to lodge charges of obtaining money under false pretenses against the Coffins.

The government is already preparing charges against the bank officers.

Several eminent citizens are sweating blood, and the community is awaiting the sensations.

LOCOMOTIVE BOILER EXPLODES.

Three Trainmen Almost Instantly Killed Near Roxabell, O.

CHILLICOTHE, O., Aug. 19.—Engine No. 107, coming east, blew up about a half mile east of Roxabell, on the Baltimore and Ohio Southwestern road, killing Robert Basson, engineer, married; Harry Roberts, fireman, single, and Ben Quinn, 24, a brakeman, whose home is at Loveland, O.

This is one of the most horrible accidents that has ever taken place on this road. The last engine blowing up on this road was the Henry Clay at Leesburg in 1868, when engineer Junevine almost lost his life. The cause of the disaster is not yet known.

The Cleveland Unemployed.

CLEVELAND, Aug. 19.—A meeting of the unemployed of this city was held in the public square, under the auspices of the Central Labor union. About 6,000 persons were present. Several speeches of a moderate tone were made. Resolutions were adopted calling upon Congressman Tom L. Johnson to work and vote for the free and unlimited coinage of silver or resign. "In order that we may not be misrepresented in congress." It was decided to continue the meeting from week to week.

The Stove Blew Up.

CELINA, O., Aug. 19.—The family of Thomas Cartwright of Rockford, while waiting for their breakfast, were startled at a loud explosion which occurred in the kitchen. The gas had blown out and their youngest daughter lighted a match and threw it into the stove. The stove was blown into fragments, and now the girl, who stood near, escaped serious injuries, is wonderful.

Attempted to Take His Life.

TIPTON, Ind., Aug. 19.—Joseph Jolly, a fast horse trainer here, took a large dose of morphine with suicidal intent. He is still alive, but can hardly recover. He is in partnership with his brother Float, has quite a respectable string of fast horses and seemed to be doing well. No one can account for the rash act, except that he has been drinking heavily for a week past.

Youth Fatally Injured.

CHAGRIN FALLS, O., Aug. 19.—Willie McKland, aged 13, fell from a haymow, followed by a pitchfork, the tines of which stuck into his back, fatally wounding him.

EDITOR GRATZ ON THE SCANDAL.

Mr. Gratz, editor of the Lexington Gazette, who is acquainted with both parties, has the following to say in reference to the Breckinridge-Pollard case: "Many people are rolling the Breckinridge scandal as a sweet morsel under their tongues, forgetting that the skeletons in their own closets may be dragged before the public at any time, for philosophers tell us that every one has such a household occupant. We prefer that the Gazette should be considered a dull paper than to blazen such tales abroad against prominent men as that which has filled many of the daily papers in the last few days. A petition to court is hardly prima facie evidence of the truth of the averments contained in such documents and malicious persons often resort to such means to slander their enemies and feel only too sure that the daily papers will eagerly seize upon anything sensational to sell their papers in dull times and in the absence of advertisements. Colonel Breckinridge has a right to be heard and a suspension of judgment by his constituents, for he has made us an able and faithful Representative, and deserves consideration under all circumstances. The word of a girl who publishes her own infamy and moral degradation is hardly to be received in condemnation of a trusted public servant of eminent ability and national reputation. After the first burst of astonishment and surprise at the publication, there was a decided revolution in public sentiment and it was plain to see that there were more to disbelieve and apologize for our Congressman than to condemn him on the exparte statement of a self-confessed fornicatress. Upon such testimony no man's character is safe, and men will be slow to admit a precedent that may endanger the peace of any and every family in the Commonwealth, and from which the most blameless life would not exempt any man. The document exhibited only vindictiveness, malice and an intense thirst for revenge for fancied injuries, for it was as well known to the author that no judgment for amount of damages could or would be worth the paper upon which it was written. It was only intense vindictiveness that could have inspired such a proceeding—a vindictiveness that ignored the sensibilities of wife, daughter, sister, and stabbed them with a wound in comparison with which the dagger of a Borga would have been a merciful infliction."

CONSUL GENERAL MASON, of Frankfort, Germany, has made a report to the State Department, in which he says that under the new tariff not only will Germany cease to draw from Russia the supplies of rye and petroleum, every year amounting to many millions of dollars, but owing to the drouth, will have a serious deficit this year in her own home crop of grain, which will call for a very large importation of breadstuffs from the United States.

In an editorial on the financial situation, the Evening Journal, owned by Secretary of the Interior Smith, yesterday afternoon called upon Congress to "pass the free coinage bill of both gold and silver, putting enough silver in the silver dollar to put it on a parity with the gold dollar." "We further believe," it says, "that Mr. Cleveland and his Cabinet, of Democratic leaders in the Senate and House squarely favor this plan."

The steamer Lexington failed to raise the sunken Congo, near Vanceburg. The boat is damaged more than was at first reported. A pump will be used to-day and Captain Smith hopes to have her afloat by night.

The many friends of Editor M. F. Marsh, of this paper, will regret to learn that he is not so well to-day as he has been for several days back. He had another attack of fever last night, the first for over a week.

SOME unknown friend sent Mr. Sanford, the mail agent on the K. C., through the Adams express, a small satchel containing five young kittens. Attached to the satchel was a card bearing the following: "We are five homeless wanderers thrown on the mercies of the cold world. Please give us something to eat and drink."

THE Mt. Olivet Advance says in reference to George Pollitt and Scott Wood being fined for selling a watermelon on the streets here, that the young men sold more than one melon, and that the warrant was sworn out by a merchant who a few months ago was taxed \$11 for selling a chicken on the streets of Maysville. Don't gag at your own medicine.

A YOUTHFUL MURDERER.

The Court Room Crowded by an Excited Crowd Eager to Hear the Details of the Killing.

A special from Vanceburg says: "Tony Walker, the murderer of young Edward Adams, was brought before the County Judge at 2 o'clock Thursday afternoon for a preliminary hearing. Long before the hour appointed for the examination the court house and the grounds surrounding it were thronged with a mass of excited people, awaiting with breathless impatience the moment when the accused should be brought forth. Many persons had come from a distance of twenty miles to feast their morbid curiosity on the sensational food this terrible episode placed before them. The court house was densely packed. People jammed the seats like sardines in a box, while the aisles were densely packed. "When the trembling little dandy was brought in, a shuddering whisper ran through the audience like a wind wafted from a vale of death. Eyes of anger and deep-set vengeance were flamingly fixed upon the friendless little wail. When the moment for the proceedings to begin arrived Attorney J. Noel Johnson arose and on behalf of the prisoner, stated that the defense would waive examination. "The public mind was too much excited at the present stage to render it entirely safe to allow the details of the crime posted before the angry eyes of the multitude. When the people found they were to be deprived of their ghastly pleasure, in hearing the testimony, a murmur of suppressed rage ran around the house. The attorney then turned on the people and appealed to their chivalry and manhood. He said he hoped the people of Eastern Kentucky would never be guilty of a crime that might put in issue their reputation of being the bravest people under the stars. "In view of the fact that the boys had been inseparable friends, and that the negro seemed so fond of his victim, leads many sober-minded people to entertain the belief that the killing must have been accidental. The boy will be tried at the September term of the Circuit Court."

"THE OFFICE" CLOSED.

A Cincinnati Sample Room Noted For its Works of Art Quits Business.

There are few persons in Maysville and Mason County who ever visited the Queen City that did not know by sight or reputation George Ellis' "Office," on Vine street, opposite the Enquirer office. The proprietor was one of those quiet, modest genial men who made friends of all with whom he came in contact. In his place he kept the choicest of liquid refreshments. Besides that he had his rooms fitted up with all the appliances for the comfort of his guests that modern invention brought out for such places. But above all this his rooms were filled with works of art, from copies of prize photographs by the famous photographers of the country to paintings and sculpture by the noted artists of the world. His walls were covered with such things, and one would spend hours looking at them as they would in an art gallery. These facts become known far and wide, so that strangers visiting Cincinnati sought "The Office" to meet George Ellis and inspect his place and view the results of his artistic taste. To all who have known him the knowledge that he has been compelled to make an assignment will cause regret. He made an assignment to Edward B. Hunt. For several years Mr. Ellis has been compelled occasionally to borrow money. His trade has fallen off recently to such an extent that he could not go any longer. His rent was over \$400 a month, and this and his other necessary expenses could not be met.

Any Time is the right time for everybody to drink Hires' Root Beer

A temperance drink.
 A home-made drink.
 A health-giving drink.
 A thirst-quenching drink.
 A drink that is popular everywhere.
 Delicious, Sparkling, Effervescent.

A 25 cent package makes 5 gallons of this delicious beverage. Don't be deceived if a dealer, for the sake of larger profit, tells you some other kind is "just as good" as Hires'. No imitation is as good as the genuine Hires'.

Complete Manhood and how to attain it.

At last a medical work that tells the causes, describes the effects, points the remedy. This is scientifically the most valuable, artistically the most beautiful, medical book that has appeared for years; 96 pages, every page bearing a half-tone illustration in tints. Some of the subjects treated are Nervous Debility, Impotency, Sterility, Development, Varicocele, The Husband, Those Intending Marriage, etc. Every man who would know the grand truths, the plain facts, the old secrets, and the new discoveries of medical science as applied to married life, who would atone for past follies and avoid future pitfalls, should write for this wonderful little book. It will be sent free, under seal. Address the publishers, Erie Medical Co., Buffalo, N. Y.

ALL WERE PLEASED.

The Mason County Teachers' Institute
Has Finished Its Labors.

Five Days in Session—The Law on
County Teachers—Vice Presi-
dents Appointed.

The institute was called to order Friday morning by Superintendent Blatterman at 8:45 o'clock. After music and devotional exercises Superintendent Blatterman read the late law on County Teachers' Associations. The said association requires a Vice President for each magisterial district who shall hold at least one meeting in said district during the first six months of each school year. Every teacher shall attend the meeting held in the district in which they teach, and upon failure to do so shall teach an additional day during the school month following such failure. Superintendent Blatterman appointed the following Vice Presidents:

Maysville No. 1—E. Swift.
Maysville No. 2—J. W. Roland.
Minerva No. 3—E. B. Buffington.
Murphysville No. 4—John Rea.
Jersey Ridge No. 5—Clarence Martin.
Sardis No. 6—J. W. Jett.
Oak Woods No. 7—G. H. Turnipseed.
Orangeburg No. 8—H. P. Wilson.

The first subject, mental arithmetic, was discussed by Prof. A. L. Peterman.

Language lesson was then introduced by the instructor, who gave some practical lessons on the subject, and earnestly requested the teachers to use language lessons in their schools.

After a short recess Mr. Buffington discussed the subject of grammar, explaining his method of teaching. He was followed by J. E. McKinley, who gave some excellent methods of teaching this important subject.

Mr. Wilson believes in using the language lesson at first, and introduced the text-book. Prof. Rea then followed. He believes in using Holbrook's grammar on infinitives and participles.

The query box was then opened and gave the institute something to think about.

The following resolution was read and unanimously adopted:

Resolved, That the thanks of this association is due and are hereby given to Hon. G. W. Blatterman for the interest he has shown in the cause of education in trying to raise the standard of public schools in Mason County; also for the impartial manner in which he has presided over the institute, and that the thanks of this association be extended to Prof. Peterman for the able manner in which he has conducted this institute; to the Board of Education for the use of the building, and to Clarence Martin, our able Secretary, and to the members who assisted in the music.

On motion of Prof. Thomas it was decided to hold the first County Teachers' Association on the last Saturday in September, in Maysville.

After singing "God be With You Till We Meet Again," the institute adjourned.

INSTITUTE NOTES.

The institute has closed at last.

Miss Cora Barkley will teach near Shannon.

Every member was sorry, even our able instructor.

How did you like the "Pleasure and Pains of Teaching?"

All the teachers wish the institute were to continue ten days instead of five.

We must not forget to thank Mr. Asbury and Miss Hudson for the excellent music which we have had.

Miss Bettie Bean, will take charge of the Springdale school, which was formerly taught by Miss Wilson.

Mr. C. E. Turnipseed will be at Limestone again this year. This speaks well of Charles as this is his fourth year.

Mr. Hays Thomas will still have control of the Fourth street school. Mr. Thomas is one of the best teachers in the county.

Never was there such a gathering of teachers at any institute in Mason County as was congregated together Friday morning, to hear Professor Peterman's address.

The Brown County Institute visited us in a body, Friday morning, fifty of that county's able teachers were welcomed by the members of our own interesting institute.

A large crowd attended the address delivered by Prof. A. L. Peterman, Friday morning. All those who listened to the address were delighted, and were kept in paroxysm of laughter from the beginning to the close.

We ought to be thankful that we have had such an able conductor as Mr. Blatterman at the head of the institute. The skillful manner in which he conducted the institute is deserving of much praise from the teachers.

It will be one year before an institute is held in Mason again and all teachers hope that we may be instructed by such an able and conscientious instructor as Professor Peterman! Too much can not be said of his ability as an institute instructor and we all hope that we may have him with us again.

The Fair.

Everything is in readiness for the great Blue Ribbon Fair that will commence here next Tuesday and continue throughout the week. The grounds are in first-class condition, the track, one of the best in the State—was never in better order—and everything indicates a great crowd, and a week of fine sport. The display in the floral hall this season will surpass anything ever seen in this department before.

To Cleanse the System

Effectually, yet gently, when costive or bilious, or when the blood is impure or sluggish, to permanently cure habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, to dispel headaches, colds or fevers use Syrup of Figs.

THE Inter-Denominational Bible Class was organized last night at the room of the Y. M. C. A. A large number were present and an organization was effected. The first regular meeting will be held next Friday evening at 7:30 o'clock in the Y. M. C. A. room.

It has been definitely decided that Murphy, the jeweler, is leader of low prices without sacrificing quality. The gold, gold filled and silver watches now on sale, are without an exception the cheapest these goods have ever been sold. Call and see them, at P. J. Murphy's, successor to Hopper & Murphy.

ED. L. JONES, a deaf mute, is selling in this city a compound that instantly removes all kinds of dirt stains, such as grease, pitch, paint and fruit stains from clothing and carpets. It is certainly a good article, and sells at 10 cents a package, which puts it within the reach of all. He is an industrious young man and worthy of patronage, and has an aged mother to support. Jones will call upon citizens at their residences.

MR. T. B. ALEXANDER, who opens a week's engagement at Washington Opera House, Monday August 21, is well and favorably known to Maysville theatre goers. Mr. Alexander has surrounded himself with a strong company of capable ladies and gentlemen including such well-known favorites as Geo. M. Hayes, Chas. W. Burch, Will J. Wikoff, Miss Bessie Bennett and others. The band is credited with being one of the very best on the road, and will make parade Monday giving concerts each day thereafter.

BURGLARS BOLD.

A West Ender Who Couldn't Pursue the Robbers Because They Had His Pants.

Last Wednesday night Mr. Jack Clare, who resides with his mother and sisters just below the city limits, was awakened by the barking of their dog, which seemed to be in an unusual state of excitement. Thinking that something must be wrong he arose and looked out of the front window, and to his surprise found a chair in a convenient position on the outside to afford easy access to any one who might wish to pay them such an untimely call, as the windows were raised and the shutters only partly closed. Alarmed at this he started to dress himself in order to make an inspection of the premises, when he was dumfounded to find that his coat and trousers were missing. Of course Jack could not think of pursuit in undress costume, so the midnight prowlers made an easy escape. Next morning kind neighbors brought Mr. Clare's apparel home minus of some small change which the thieves had appropriated before they dropped them in the roadway some distance from the house. A plush box, which was also taken was afterwards found and returned by passersby.

Hudson-Kirk.

Miss Anna Kirk, formerly of this city, who now resides in Cincinnati, was united in marriage to Mr. J. W. Hudson at St. Peter's Cathedral in that city Thursday evening, Rev. Father Murray officiating. Miss Kirk was a most pleasant and agreeable little lady, and her many friends will join in wishing the couple a long and happy life.

THE regular 10:30 a. m. service at the Christian Church on next Sunday. No service at night. Night service will be resumed one week from next Sunday night. Theme of morning sermon: "The Fire Test." Sunday school at 9 a. m. Y. P. S. C. E. at 7 p. m. All are made welcome.

FOR the first time in several years the riot alarm was sounded at the Lexington police station Thursday morning at 3 o'clock and every policeman on duty called to headquarters. Two prisoners in the city bastille made daring escapes from their cells. The men pried the planks from the bottom of their cells, and, by crawling under the floors, succeeded in getting away.

A LARGE and appreciative audience assembled on Market square last night to hear the concert by Haucke's Reed and Brass Band. To say they were delighted with the sweet strains as they were poured out on the stillness of the evening would be putting it mildly. The streets around the square were crowded and remained so until the last piece on the programme had been rendered, a compliment the band was highly deserving of.

REV. HENRY WYTHAM, of the M. E. Church, Ripley, O., will preach in the M. E. Church, Third street, this city, at 10:30 a. m. to-morrow and again at 7:30 p. m. BONIFACES BLUE.
Hotels of the Country Seriously Feel the Effects of the Stringency.
NEW YORK, Aug. 19.—The hotels of the country have felt the effect of the recent senseless financial scare to an extent unprecedented in the history of the hotel trade of the country.
Last week a prominent hotel man took it into his head to address some 50 letters to as many of the leading hotels of the country, making personal inquiry regarding the conditions of their business.
The replies have been coming in and some of them are remarkable in their tenor. The manager of one of the largest and finest hotels in the country, located in a city only a night's ride from Chicago, and which costs a small fortune to maintain, told how, on a recent Sunday, he had but 25 guests in his house and between the kitchen and the roof an army of 200 employees to do their bidding.
Another hotel man, located in one of the largest cities of the middle states, told how six drummers came in one morning, visited their customers and left on the afternoon train without even unpacking their goods. Under ordinary circumstances they would have remained two or three weeks. His losses by such experiences as these, he said, had footed up fully \$5,000 inside of a week.
Nearly every one of a score or more of writers had some particular or peculiar wail.

KNOWLEDGE
Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.
Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.
Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

Wall Paper
Prof. O. H. DeLamorton, of Paris, France, has established a branch of his famous PARISIAN CHAMPION SCIENTIFIC DRESS CUTTING SCHOOL in this city. Rooms at Mrs. Joseph Wood's, corner Third and Limestone streets.
Ladies, this is no humbug. You are respectfully invited to call and investigate for yourselves before you pronounce judgment. We teach to cut without seams and with more seams than any other system. Garments fit perfectly without trying on. It is simple, easily learned and an accomplishment for any lady to know how to cut her own and children's garments. Dress-makers especially cannot afford to do without it.

LESSONS GIVEN FREE
to those who book their names within ten days. Ladies, do not miss this opportunity or you will regret it. MADAM L. L. MARSHALL, Instructor.
